WASHINGTON (UPI) -Unemployment dropped to 5.8 per cent in October while the total number of Americans holding jobs reached a record high, the government reported today.

It was the second straight monthly decline in the Jobless rate, following imposition by President Nixon of the wageprice freeze on Aug. 15. Joblessness has hovered between 5.6 per cent and 6.2 per cent of the work force for the past year. It stood at 6.0 in September and 6.1 per cent in August.

The Labor Department's Bureau of Labor Statistics, which reported the figures, said rose 320,000 in October, after seasonal adjustment, to an all-

time high of 79.8 million. This was the second favorable report in as many days standpoint in its effort to slow inflation and reduce unemployment, On Thursday, the Labor Department reported a drop of wholesale level usually percolate downward to be reflected

The committee's decision to revive the aid measure, however heightened chances that Congress will act to prevent the program from expiring Nov. 15, when authority to obligate new funds runs out.

Thursday's decision to extend the aid bill on a sharply reduced level until June 30 came in a series of 14 separate committee votes. Many of them were close. The critical one was an 8 to 7 roll call on splitting the program into two separate bills-\$1.2 billion for military assistance and a \$1.1 billion for economic and humanitarian programs.

It was Sen. Karl Mundt, Rthe total number of jobbolders. S.D., who provided the margin of victory for that proposal. Mundt suffered a stroke on Nov. 13, 1969 and has not set foot in the Senate since. But Sen. Hugh Scott, R-Pa., used the administration's his proxy to provide the winning margin.

Bankers received their first shipment late
Thursday from the Salt Lake City Federal
Reserve Bank.

The cartwheels will be in only limited supply for several weeks, bankers said.

The silver dollar disappeared several years ago when the mints halted production and collectors began hoarding.

The dollars had been considered a trademark of the western states, particularly symbolic of the Neveda gambling easings.

Kindergarten fund plea killed

BY LEE TREMAINE

TWIN FALLS - State-supported kindergartens suffered another major setback in Idaho on Thursday when school-district trustees defeated a resolution urging state funding of preschool classes.

The vote was close, with 679 votes cast in favor to 970 in opposition. Each school district votes as a unit, with the number of votes allowed depending on its size.

The resolution, proposed by trustees of Idaho Falls School District No. 91, asked the Idaho School Trustees Assn. to 'recommend that the 42nd Idaho Legislature provide sufficient funding over and above present general fund appropriations to finance a voluntary program of public school-operated kindergartens.

Little discussion was heard on the proposal, which came at the end of a marathon session during which 23 other resolutions were acted upon by the trustees

A survey of "facts relative to existing public-

school kindergarten programs and lmplementation of new kindergartens in the western states," developed by the ISTA last summer, said that 43 states now provide public kindergartens,

Of these, eight have mandatory programs while 35 have permissive pre-sch State aid is provided in 38 states.

An opinion survey on the feasibility of kindergartens in Idaho was sent to members of the ISTA, presidents of PTA units, president s of Idaho Education Assn. units, the Idaho Taxpayers' Assn. and school superintendents

In every case, a majority of the respondents indicated that kindergartens would not be "first priority" if the legislature is able to increase school funding.

A summary of all surveys revealed that 5,291 questionnaires were mailed, with only 2,358, or 45 per cent, returned. Of those returned, 22 per cent favored kindergartens over other school needs, and 78 per cent opposed the concept

By contrast, of all respondents, 57, per cent

expressed willingness to support "a program of tax-supported kindergartens for the State of Idaho," with 43 per cent unwilling.

The question "If kindergartens are not your first priority, should they receive a high priority?" brought a 50-per-cent favorable and 0-per-cent negative response

During the discussion on the resolution, mention was made of the negative response toward kindergartens revealed in the ISTA

Earlier in-Thursday's ISTA convention activities, Rep. Ernest Allen, R-Nampa, chairman the House Education Committee, speaking on legislative interests in education, said kindergartens would eventually be funded, but indicated following the speech, when asked by a Times-News reporter, that state funding of prehool classes is "some time in the future.

Rep. Allen said he felt there just is not sufficient public support of the funding aspect to plan for an appropriation in the 1972 Idaho legislative session.

TWIN FALLS - George V. Hansen will go to the "grass roots" seeking financial aid in his quest for the United States Senate seat to be vacated by Sen. Len Jordan and will embrace a campaign platform asking that agriculture "get out of the back xeat and take its rightful place in the power structure of this nation.

Hansen, who served two, terms in the House of Representatives 88 Republican from the second

district through 1968, resigned Wednesday from a key job in Department Agriculture's Stabilization

Service: He was director of state and county operations for the service.

Interviewed by telephone in

Washington, D. C., Thursday, Hansen said he would drive back to Idaho and expected to reach Pocatello Sunday. He "discussion circuit" on Tuesday or Wednesday.....

The former Congressman who was defeated in his initial attempt to gain a Senate seat against Sen. Frank Church in 1968, told the Times-News that "I assure you that it is not easy to give up one of the most-important agricultural posts in this nation's government for an unsure adventure in politics but it is the only way I can talk to the people of Idaho about their stake in national decisions."

"Just because agriculture, the nation's number one business, has failed to establish a strong support group in the United States Senate and other key areas of government, they lack the political power to compete with other wellorganized groups.

"Recent events have coninged me that agriculture nust offset the demand and pressures of other groups. We must assure fair representation and treatment to the farmers and to the people in the cities and towns of rural American." Hansen said.

He added that he felt "so strongly" about this altuation backing from the northern part that he thought it was well of Idaho and that an

Hansen expects former Gov. Robert Smylie, who has announced, and Cong. James McClure, Idaho's first district Republican who is expected to announce soon, to receive the bulk of the funds from the "big money club" in Boise. He said this money is not "really party noney" but is that controlled by the "political power boys."

During the interview Hansen said he had been asked by "certain people in Idaho" not to run for the Senate because "they wanted to hold it down to a race between Smylle and McClure."

"But I do plan to run," het said. He said he was getting

Supreme court gives decision

TWIN FALLS - The Idaho Supreme Court has reached a decision upholding the action of the Fifth Judicial District Court here in the case of Harold Patterson against Magic Valley Memorial Hospital, supporting the defendant in the case.

The Fifth District Court granted a summary judgment and dismissal of the charge brought by Patterson, charging the hospital with malpractice. He alleged dye used for injection into his spine for Andrus examination purposes was notremoved by the hospital staff and the result was a resulting permanent injury.

The high court held Patterson filed an identical complaint in Blaine County in 1966 which was dismissed in 1970 for failure to prosecute.

They said Patterson had knowledge of the alleged malpractice no later than 1966 and the two-year statute of

Aides get sneak preview

BOISE (UPI) - Gov. Cecil D. Andrus called in the legislative leadership this morning for a sneak preview of his top-priority executive reorganization plan the public won't see until Nov. 18.

"It's just not complete yet," Andrus said. "We're going with the legislative leaders to get their input."

He said once the plan is completed there will be plenty of time — months, he said — for the public to give the administration its views of the pro-

transportation expenses. Besides Andrus and the legislators, Andrus' administrative assistant, Edward V. Williams, and personnel of the State Planning Agency will attend the meeting.

Andrus assigned the task of government reorganization to trustee the planning agency last spring. Press Secretary John D. Hough said the job has been one of the principal tasks of that agency since then. -

'It's a complicated plan," Hough said. "It's taken a great number of people to come up with what still is an incomplete

Twin Falls County had not been filed within the required time and was thus barred by the statute of limitations.

Arguments in the case were brought before the high court in an appeal action filed by Patterson and were heard when the court met in Twin Falls this fall.

BOISE (UPI) - Gov. Cecil D. Andrus is polling members of the Natural Resources Advisory Board on whether they think the limitations began to run out at board should be retained and, if so, in what form.

In a letter dated Wednesday, Andrus said he was concerned about whether the board, as now constituted, "creates duplication of effort."

'For example, I note by the minutes of the last meeting that we have four subcommittees formed, as follows: 1. air pollution; 2. water pollution; 3 aesthetics and 4. solid wastes," the governor aid in his letters.

"These matters are already vested in the department of health or some other agency, by statute. Therefore, any endeavors that this board might undertake in these areas are conceivably duplications of efforts already being made.

"At this point," he added, "I would like to make it perfectly clear that the quality and stature of the individuals who make up this board are not in auestion."

However, Andrus said he at present is examining all facets of the executive branch of state government with an eve toward reorganization therefore, he asked board members to answer six questions:

Example Lacking

Some people still insist that governments alone can solve human-problems. In some cases, they may be right. In many, the record indicates otherwise.

Stringent controls have been placed on the free enterprise system by the federal government in an attempt to halt inflation. Yet one of the major contributors to inflation for years has been the mammoth national debt, expanding each year through large deficits in federal budgets.

Crime has become a national scourge and various government bodies are expanding to cope with it through measures which include increased restrictions of various kinds on the private citizen. Washington, D. C. a city for widely abused.

which the federal government is administratively responsible, continues to hold one of the worst crime records.

PHOME 733-0931

Environmental pollution of all kinds has brought forth standards and restrictions for industry by government. This year's list of the 15 worst air polluters in Philadelphia, prepared by the city, includes both the city government

and the federal government.

Each citizen could add to the list of comparisons which showgovernment—at all levels—hypocritical by demanding of others what it will not do itself. It is a dangerous situation in a nation built on the essentials of freedom, an indication that power is being

Women's Rights

Whatever Senate Late awaits the Equal (Sexual) Rights Amendment, just massed by the House for the second time, a major goal of that amendment is slowly becoming nationwide law anyway.

The Women's Bureau of the U.S. Department of Labor reports that since the enactment of Title VII of the Civil Rights Act of 1964, a majority of the states have curtailed laws or restricting the number of hours women may work-laws once intended to protect women but which today have the effect of discriminating against them.

In 1963, 40 states and the District Columbia had maximum

hours laws for women. Ten states have repealed the laws outright, and in 13 other states the attorney general has ruled that the laws are not applicable to women covered by Title VIL (working for a company doing interstate business). In some cases, changes have come about through federal court rulings.

One argument of the girls, that qual rights for women will enhance the rights of men as well, is borne out by another factual tidbit reported by the bureau:

In a few instances, state-required working benefits for women, such as premium pay for overtime, have now been extended to men.

Trade Route

A construction project 2,175 miles long and 2,000 years old is finally within 10 years and 104 miles of completion.

This is the Europa Canal, which will connect the Rhine and Danube Rivers, and thus the North and Black Seas, and turn landlocked towns in the heart of Europe into

The idea of a pan-European waterway has tantalized and frustrated engineers for centuries. Those great roadbuilders, the link through the wilderness in the first century to permit limited eastwest commerce.

Charlemagne mobilized legions of workers for the first canal

project in 793, but the dream of a waterway spanning the Holy Roman Empire died with its ruler.

In this century, work on a canal has clanked ahead on an off-and-on basis since the 1920s, but in the past dozen years has picked up speed, money and determination, Completion of the Europa Canal by 1981 is now virtually a certainty. Truly an international undertaking, the canal involves the cooperation of 13 governments, German planning and Americandesigned WABCO Haulpack trucks بتنوي Romans, hacked a Rhine-Danube built by Belgians. Thoughts While Sitting

If you are driving—and have some of that newly acquired wine in your car-better check it a couple of times. Trouble is the law holds that if you are driving and hauling the wine around with you then the seal on the bottle cannot be broken.

In other words — someone calls and says. "come to our party and bring your bottle." If your bottle is open you had better leave it at home and stop at some grocery along the way and get another one.

Because, like we said, if that seal is broken and you have the thing in the car you will get yanked down to the clink—no fooling.

NOTE ON SUCCESS Received a note from A. Thomas who lives in Twin Falls. He said that "Success is a family and that you should really know all of them. The father of success is work, the mother of success is ambition, the oldest son is common sense. Some of the other boys are

Almanac

By United Press International Today is Friday, Nov. 5, the 309th day of 1971.

The moon is between its full phase and last quarter. The morning star is Saturn.

The evening stars are Mercury, Venus, Mars and Juniter. Those born on this day are under the sign of Scorpio.

American historian William Durant was born Nov. 5, 1885. On this day in history:

In 1733 German-born publisher John Peter Zenger began printing the newspaper The New York Weekly Journal

In 1911 Galbraith Rogers completed the first transcontinental flight. It took him 49 days to fly from New York to Pasadena, Calif.

In 1940 President Franklin D. Roosevelt was elected for an unprecedented third term.

- In 1955 Austria opened the reconstructed Vienna State Opera House and formally celebrated her liberation from 17 years of foreign occupation.

A thought for today: British writer William McFee said, "Responsibility's like a string that we can see only the middle of. Both ends are out of sight."

Monrovia, capital of Liberia, was named in honor James Monroe, 5th U.S.

Bellevue eyes budget

By TERRY CAMPBELL Times-News Writer

BELLEVUE - Bellevue-city councilmen are considering the value of having a city budget. Mayor Claude Ballard said in the past as the city is small it has never had a budget. All revenue is put into a general fund and expenses drawn on that account.

He said this has always worked satisfactorily, but now that the city is growing rapidly. it may be necessary to establish a budget so we can have an accessible way to account for

Impetus for the budget proposal came at a council meeting Thursday night when Mark Patterson, councilman, recommended the city write a strict budget each year

"The streets are cow paths." Patterson said, "and Bellevue has the shabblest police car in

the state of Idako

The discussion regarding finances followed a decision to change the collection system on monthly water fees to include each resident using the water. Mitchell Lete, water maintenance man, said the city now charges a \$3.50 monthly rate for each hookup of the water main. but some hookups serve three trailers.

Councilmen voted to collect fees from each water-using dwelling. The change, effective immediately, will affect 25 residents, Lete said. By each resident who uses water paying the usual \$3.50 monthly fee, an additional revenue of \$143.50 will be brought into the city

Councilman Patterson said he was opposed to "making the water system pay the cost of bills. government' and

Councilmen discussed the need to raise real estate taxes. Patterson said Hailey levies about 50 mills per year while Bellevue's levy is 25 mills. He said Hailey has twice the assessed valuation of Bellevue. "Bellevue ts going along on a

INGLEWOOD, Calif. (UPI)-Elgin Baylor, 37-year-old veter an star of the Los Angeles Lakers basketball team, announced his retirement Thurscould no longer perform up to his own expectations.

At the same time, Baylor announced he would remain with the Lakers as a scout and public relations consultant.

In accepting Baylor's retire ment, owner Jack Kent Cooke said Baylor's No. 22 would be retired and the club's management paid tribute to Baylor for his years as a star with the

"I wish to announce my retirement from professional hasketball as an active player, Baylor said. "I am taking this action with the support and concurrence of the Los Angeles ·Lakers.

NAIA puts 4 clubs on probation

KANSAS CITY, Mo. (UPI)-Four schools Thursday were placed on probation by the National Association of Intercollegiate Athletics for violation of NAIA rules concerning eligibility standards.

They were Rockhurst College Kansas City, Mo.; Blackburn College, Carlinville, Ill.,; 'New Mexico Highlands, Las Vegas, N.M., and New York State University, New Paltz.

Rockhurst, Blackburn and New York State were found to have used an ineligible soccer player during the 1971 season and must forfeit contests in which the ineligible athlete was used. The three schools also were placed on probation in the soccer only for the 1971 soccer season, including post season competition

Cooke, in announcing that Baylor's number was retired by the club, paid tribute to the veteran sta

"One of the privileges I have enjoyed as the owner of the Lakers," Cooke said, "has been my association with the man who deserved the description of superstar as much as any athlete that has ever lived. I thank Elgin for his many years of brilliant and frequently astounding play. And now the Lakers front office organization will be truly enhanced by Elgin's presence.

Coach Bill Sharman, who had played against Baylor while a member of the Boston Celtics, joined in the tributes.

'I have always admired Elgin Baylor and knew him to be a superstar," Sharman said. "It is well known that I was "Now after coaching working with him I have found him to be a super person also.'

Sharman pointed out that Baylor had made a tremendous effort to continue his top performance despite undergoing surgery last year for a torn Achilles tendon.

General manager Fred Schaus, who coached the Lakers when Baylor joined the club out of the University of Seattle 13 years ago at Minneapolis, called it a sad day for him personally but added his pleasure that Baylor was joining the staff of the Lakers.

Among the special circumstances is the imminent takeover of a United Nations seat by the Communist Chinese and an expected move by the Chinese to assume third world eadership in the U.N

Another is the fact that Tito, before arriving in Washington, had met with Mrs. Gandhi in New Delhi, with Pakistan President Mohammed Yahya Khan, Egyptian President Anwar Sadat, Ethiopian Emperor Haile Selassie and with Soviet party leader Leonid Brezhnev.

Selassie in turn had just returned from a meeting in Peking with Chinese leaders including Premier Chou En-lai and Mao Tse-tung, chairman of the Chinese party.

With no such impressive credentials in her immediate background, Mrs. Gandhi's visit was nonetheless important for the increasing chance of war between her country and neighboring Pakistan-a war which many observers hold to be a question of when rather than if-and the new low to which her relations with the

face to face for the first time with a friend [or acquaintance) who has had cosmetic surgery-like a nose job or a

I recently ran into a woman who had just had a facelift, and with absolute sincerity, I said, "Your recent surgery has improved your appearance 100 per cent!

She gave me an icy stare and walked away without even saying thank you. I felt like 2 cents.

Another time, I pretended I didn't notice that a friend's daughter had recently had a nose job. It was obvious, but I said nothing.

Finally, she said, "Don't you notice anything different about me?" I felt foolish. Of course, I'd noticed, but afterhaving learned my lesson with the face-lift lady, I didn't want to mention it.

So please tell me, Dear Abby, what is a person supposed to do? IN A QUANDARY

DEAR IN: Since vanity prompts most people to have cosmetic surgery, to ignore it is unkind. But to rave too enthusiastically over the "improvement" may give the impression that her [or his] former appearance was dreadful,

If the change is conspicuously for the best, say, "My, you look great!" They'll get the message without having to

DEAR ABBY: I am 16 years old, and am in love with an 18-year-old boy. We've been going steady for seven months and were planning on getting married in about a year from now

We have gone all the way to express our love several times. My mother found out about it and carried on something awful, and now she is making us get married as soon as my boy friend gets his next paycheck

Abby, we don't have any furniture, and we don't even have a place to live. My mother won't lot me see my boy friend, and says I am to stay strictly in the house until I am

I love my mother and don't want to hurt her, but she is hurting me more by making me get married with nothing except the love I have for my boy friend.

Do you think she is right in forcing us to marry right now with nothing?

. DEAR GIRL: To force two ill-prepared young people into marriage in order to punish them, is, I think, very shortsighted. Worse yet, your 18-year-old boy friend is bound to feel trapped and resentful, and an unwilling bridegroom, makes a very poor husband.

DEAR ABBY: I have had the same hairdresser for years. does nice work and I had always looked forward to my weekly appointment.

Unfortunately, someone gave her a small portable television for a gift. She then started bringing it to work so she could watch a program on her lunch time. Fine. Soon she started to watch the program which followed it. Then the next. And the next. Until now she's got it on all

I am not only speaking for myself because other customers have told me that since she's had the TV set in her booth her work is slipping. Also, she is very unpleasant and crunky. If someone speaks to her, she goes, 'Shhhhh, I want to hear this."

She is a faithful reader of your column. How can I let her know I miss her formerly friendly chit chat?

DEAR UNHAPPY: After this hits print, you may not
